while in the recent decades the field of architecture has primarily focused on the self sufficiency of individual buildings the current ardeth issue wishes to bring back scholarly attention to an approach that prioritizes energy conservation and generation at the urban scale such an approach relies on the idea of the productive and not only consumptive urban environment in which the built fabric topography soil bodies of water green spaces as well as regional climatic conditions determined by sun wind rain flows and seasonal temperatures serve as potential parameters for energy production how do different built fabric densities contribute to and limit the emergence of post carbon energy landscapes what are the implications of a british suburb an italian medieval town or greek informal settlements densities on the production distribution and use of post carbon energy in those areas

workshops in architecture and urban morphology wam is an educational scientific tool directed to the main themes of architecture and urban design urban morphology is the main instrument used for these experiences each workshop involves one or more institutions universities municipalities foundations and is coordinated by academics and practitioners it is held in three stages a first one methodological during which the participants m sc students learn the main instruments of urban morphology and apply them to the structural reading of the project area a second phase the in the field workshop during which they verify the reading and set up the project s main frame a third and final phase is then entirely dedicated to design and to the preparation of the final project at the end the most interesting results are published in a series aimed at documenting the possible educational operative outcomes of a morphological design methodology for the contemporary city

this book includes peer reviewed article from the 2nd international conference on trends in architecture and construction ictac 2024 held at chandigarh in india it explores modernity sustainability technology and education within the ever evolving architectural landscape this book echoes a collective dedication to fostering environmentally conscious urban practices it navigates the symbiotic relationship between technology and architecture shining a spotlight on the pivotal roles of ai digital tools and cutting edge construction techniques beyond the tangible the publication illuminates the shifting terrain of architectural education honing in on emerging research paradigms and the integration of innovative pedagogies rooted in sustainability this compendium stands as a vibrant repository of insightful contributions nurturing an expansive dialogue on the future trajectory of architecture

il convegno nasce come espressione della volontà della soprintendenza speciale archeologica beni artistici e del paesaggio di roma condivisa con questa azienda di ampliare le conoscenze sugli ipogei che insistono al di sotto dei nostri presidi ospedalieri in relazione e in analogia a quanto già condotto in precedenza presso l'area di insediamento della basilica costantiniana intitolata al santissimo salvatore e le aree adiacenti sulle quali vennero edificate tutte le altre strutture a compimento del patriarcato sin dal iv sec d c la sopra citata volontà si è concretizzata con una apposita convenzione sottoscritta nel febbraio del 2018 che ha ritenuto di coinvolgere studiosi appartenenti a prestigiose università italiane ed internazionali i cui attori principali erano quelli che fino ad allora avevano già dato il loro massimo contributo di alto valore scientifico sia sull'area lateranense sia nell'area di competenza dell'antico ospedale the conference came about as the

expression of the desire of the soprintendenza speciale archeologica beni artistici e del paesaggio for rome a desire which our administration also shared to expand knowledge of the underground remains that stand below our hospital buildings in relation to and in analogy with the work already done in the past near the area where the constantinian basilica stood which was dedicated to the most holy saviour and the adjacent areas on which were built all the other structures to complete the patriarchio ever since the 4th century ad this aforementioned desire took concrete shape with a special agreement signed up to in february 2018 which set out to involve academics from prestigious universities in italy and abroad the main players in this agreement were the same ones who up until that time had already made their biggest contribution of high scientific value both in the lateran area and in the area pertaining to the ancient hospital itself

covid 19 has stressed the condition of radical uncertainty that increasingly characterises our times and compels cities to learn new ways to cope with unexpected global urban challenges the volume proposes preparedness as a key concept in urban geography planning and policy inviting international scholars to discuss its pros and cons firstly it builds a critical theoretical framework around the concept of preparedness in relation to the covid 19 effects and other interconnected crises then the authors put at work and redefine preparedness starting from worldwide surveys research experiences public discourses and spatial strategies analysis in europe and more extensively in italy finally the closing section goes beyond the view of preparedness as an emergency tool proposing to interpret it more broadly as a technology supporting a sustainable urban transition the book mainly targets academics in urban planning policy and geography however the prominence of the topic of preparedness makes the volume an essential reading not only within social sciences but further in engineering basic sciences and life science in addition the book provides directions to practitioners and civic leaders in supporting cities and regions to prepare themselves in the face of pandemics and unpredictable socio environmental shocks

this book represents the culmination of years of hard work and intense passion it celebrates the love of beauty as it is manifested in the art collection introduced in the volume the works catalogued encompass around one fifth of alanas entire italian old master collection it is the product of work and research of numerous visits to different countries and cities in order to see the original works of art visit art fairs and seek the advice of a variety of specialists the collection covers the period that goes from italian gothic to italian high renaissance art alanas aim has always been to build a collection that considers not only the great masters but also those who followed in their footsteps and added their personal contributions alongside the achievements of the major figures alanas ambition has been to chart the history and evolution of the different italian schools the ways in which they inspired one another and ultimately created so many distinctively beautiful works of art in order to do this this collection has been conceived as a living one which continues to improve evolve and welcome new works a private and artistic history of each master is given as well as rich visual reproductions basic information and a thorough technical explanation of both the most important masterpieces those in color and the ones that are relevant to the style or period those in black and white the volume concludes with a table noting the names and locations of the works mentioned in the book as well as an extensive bibliography
